In spite of the fact that the House and Senate recessed last week for most of Thursday and all of Friday, there was much activity during the early part of the third week of the session.

The House Education Appropriations Committee released its Education Budget proposal without much fanfare or discussion (see related story). Meanwhile, the Senate Education Appropriations Committee voted to repeal the $9 million that was advanced last year for a School of Chiropractic at FSU. Additionally, University Governance legislation was briefly discussed on the House floor and is expected to pass to the Senate tomorrow (see Spotlight on Bills). Also, committees in both the House and Senate again heard testimony from SUS HR Directors about the problems they’ve been experiencing with the state-employee personnel system since it was outsourced a few years ago to a private company called Convergys.

On an especially sad note, Representative Dave Coley, a recently elected legislator from Marianna, fell victim to liver cancer last Friday, March 25. He was 43. Dave was a friend and avid supporter of Florida State University who will be missed terribly. Representative Coley’s wife and three children are especially in our thoughts and prayers during this difficult time.

Budget Update

The House Education Appropriations Committee released their draft budget last week. Below is a comparison between their draft, and that of the Senate. Amendments to both chambers’ versions will take place next week, after which each chamber will pass their budget bills, probably during the following week.

SUS Enrollment Growth
Senate—$37 million (about $3.7 million for FSU)
House—$31.6 million

Tuition Policy
Senate—A mandatory 5% across-the-board increase, with flexibility by each university’s Board of Trustees to increase out-of-state and graduate tuition up to an additional 5%. (Each 5% increase will generate approximately $34.6 million for SUS schools.)
House—A mandatory across-the-board 7.5% increase, with unlimited flexibility above this percentage for graduate and out-of-state tuitions. (A 7.5% increase will generate approximately $52 million.)

SUS Challenge Grant Program
Senate—$44.5 million
House—$41.9 million

Neither the House nor Senate address university salaries, or the $9 million recommended in the Governor’s budget for retirement/health insurance. The budget bills for both chambers, however, will be discussed this week, and it is anticipated that salaries and administered funds will be addressed at that time.

Due to the death of Representative Dave Coley, FSU Day at the Capitol on Tuesday, March 29, 2005 has been cancelled.
