FLORIDA STATE UNIVERSITY GOVERNMENTAL RELATIONS

Volume Thirteen / Number Ten • May 10, 2007

The 2007 Legislative Session came to an uneventful, if not subdued close, on time and during daylight hours last Friday, May 4th. It was uneventful and subdued, however, because legislators plan to come back for a special 10-day session on property-tax reform next month.

Governor Crist is now reviewing the \$72 billion budget and will issue his vetoes to it by the end of this month. While Florida State University received a **7.68% increase** over last year's base funding, enrollment funding was down from last year, recurring dollars were scarce, and employees will only receive a one-time \$1,000 bonus on November 1, instead of the customary annual pay raise. **(For details on the 2007-08 budget, please see the related story.)**

A number of substantive bills that affect the SUS passed during this 60-day session. Some were wanted, others weren't. The long-lingering Governance bill finally passed two weeks prior to the end of the session and the governor is expected to sign it. A bill authorizing FSU, UF and USF to charge additional tuition passed with two days remaining in the session, although the governor is expected to veto that legislation. Please see the *Spotlight on Bills* section for a complete list of higher-ed bills that passed, as well as those that did not.

I will send a final Legisletter sometime next month after the governor's vetoes have been issued on the budget and key legislation. Until then, please feel free to contact my office with any questions, comments or concerns you may have. I would also be glad to schedule a meeting to brief you and your colleagues on the 2007 session. I can be reached at **(850) 644-4453** or via e-mail at **kdaly@mailier.fsu.edu**.

**SB 1710— State University Student Fees by Senator Steve Oelrich (R – Gainesville, FSU Alum)**, provides for a tuition differential to be established by the Board of Governors for certain universities with a cap of 30% or 40% depending on the classification of the institution. Florida State University can raise tuition at the 40% level. The Board of Trustees of a university which has been authorized by the Board of Governors to charge a tuition differential may establish a tuition differential lower than the maximum authorized by the Board of Governors. The growth of tuition plus the differential cannot exceed 15% for any fiscal year. Revenue generated by the tuition differential must be spent solely for improving the quality of direct undergraduate instruction and support services.

The tuition differential will not be covered by the Bright Futures scholarship. Beneficiaries of prepaid contracts in effect on July 1, 2007 are exempt from the fee. Students who are presently enrolled and remain continuously enrolled will not be charged the fee. - OPPAGA to conduct a study of the existing articulation policies and identify any current practices that may serve as unnecessary barriers to effective progression and transfer of students within the education system.

Additionally, the bill codifies the mediation agreement between the SBE and the BOG regarding baccalaureate degrees offered by community colleges. The bill specifies that community colleges may propose to deliver:
